His career spans journalism, theater, radio plays, and transformative non-fiction that challenges humanity's deepest assumptions.

The Awakening and Mission

Since his profound awakening in 2004, Senad has dedicated over two decades to investigating structures controlling humanity. He discovered the Evil Karmic Organization, exposed religious institutions as control mechanisms, and founded the Cosmic Administration. CA is a multidimensional alliance managing 200,000 planets across 2,000 galaxies.

His mission is clear. Expose religious lies. Present irrefutable evidence. Liberate minds. Transform consciousness. Create Partnership for Earth Without Religion.

Authority and Trust

Senad Dizdarevic's credibility in the **Letters to Palkies** series rests on two decades of documented practice and verified outcomes.

Since his awakening in 2004, he has consistently applied and refined the consciousness transformation methodology presented in these books. Not as theory, but as lived daily practice.

The four-book series documents specific timeframes, personal experiences, and measurable transformations that readers can verify through their own practice.

Unlike channeled content or unverifiable spiritual claims, this work is grounded in a methodology anyone can test. The exercises for awakening into Pure Awareness produce measurable shifts in consciousness, behavioral change, and subjective well-being within the documented 6-12 month timeframe when practiced consistently.

The authority of Letters to Palkies comes not from external validation, but from the internal consistency between Senad's teaching, his lived example over twenty years, and the replicable results his methodology produces in practitioners who commit to the work.

Furthermore, his articles consistently rank #1 on Google for competitive keywords. His work appears across major philosophical forums, academic discussions, and international atheist communities. He responds to critics, engages with skeptics, and maintains transparent dialogue across all platforms.

Importantly, Senad doesn't hide behind anonymity. He shares his full identity, credentials, extensive publication history, and invites scrutiny of his evidence. His work stands on logic and science, verifiable by anyone willing to examine it honestly.

His initiatives include:

- Partnership for Earth Without Religion

Letters To Palkies Books Free Preview: Exclusive Chapter from Book 1

On "Letters to Palkies – Are You Ready For The Miracles?"

The chapter, "Letters to Palkies – Are You Ready For The Miracles?", exposes the artificial Matrix imposed by the Karmic Organization, and the miraculous transformation that occurs when those scripts are broken. It introduces the reader to the most important book series of their life, and a direct confrontation with cosmic injustice and the path to personaly awakening into Pure Awareness and planetary liberation.

Content Warning: This chapter contains explicit visions of personal and planetary transformation. It is not written to comfort the karmically programmed, it is written to awaken the Pure Awareness buried beneath their false identities.

Context: This excerpt comes from Book 1 of the *Letters to Palkies* series. It introduces the Karmic Organization, the artificial Matrix, and the awakening process that leads to the abolition of karmic control. It also documents the transformation of Planet Palki after the removal of karmic scripts and the arrival of space allies.

What makes this relevant to Earth: The same miracles that happened on Palki are coming to Earth. Understanding how karmic systems operate, and how they collapse, prepares us for the Second Enlightenment and the liberation of humanity.

Are you ready for the miracles?

This is the most important series of books you will ever read.

You will learn who you really are, what is happening in this cosmos, and who is behind all the Evil, poverty, crime, violence and war, sickness and injury, pain, suffering, and death.

I will introduce you to the Karmic Organization that has written the scripts for all our lives and imposed them into our lives through incarnants, and people from other planets.

They have created an artificial Matrix with scripts for entire planets, in which hypnotized, and programmed people to live, act for their selfish benefits, and to the detriment of other people. The unwitting, the ignorant, the stupid, and the violent smoke, drink, drug, fight, trample, wage war, and kill. In doing so, they produce negative energy on which the Evil cosmic parasites, scavengers, and vampires feed.

The unawakened and unaware of Pure Awareness live and die without realizing who they really are, why, and for whom they lived. After a deliberate and planned death and a review of their lives, they were simply switched off by the karmic masters, or in other words, killed for the second time.

In Book 1, I will give you exercises for awakening to learn how to recognize your false Ego partial personalities and to let go of their harmful behaviors, thoughts, words, feelings and emotions, and actions. You will reassemble yourself from your deliberately shattered personality into a One and Whole Awakened Personality of Pure Awareness, Love, and Wisdom.

In the Letters to Palkies, you can read about my awakening, my partnership with Sanja, my girlfriend from the planet Palki, and our collaboration with friendly space friends. With Sanja's mother Katerina, Darla, and Miša, our team from Palki, and our fantastic space friends, we have already made most of the necessary changes to the political, economic, and judicial systems on their planet, and abolished all religions, and similar superstitions in last four years.

Palkies are delighted with their new life. They are especially fond of the new, young, healthy, and beautiful bodies they were given in autumn 2018. There are no more old, sick, deformed, and disabled people on their planet. They also love the new, kind, friendly, and loving partners we have introduced them to. All those alone or in bad partnerships have new partners with whom they live in true love.

In the series, I also present a comprehensive plan to change the planet, to abolish the system of the Power Elite and the Poor mob, to abandon states as sham political organizations, but in reality criminal private enterprises, and to change them into countries, fair communities of equal countrymen with a new constitution, and with new fantastic rights for the good life of all.

All Palkies, as equal co-owners of all the land and its resources, have a constitutional right to a free estate and a house with all the most advanced space technology. The houses are equipped with food and drink replicators, which they can use to instantly create their meals. The new houses have no electricity, gas, plumbing, or utilities. All electrical appliances run on free energy from the environment. Free water, which is 100% clean, is generated by replicators. There are no drains in the bathrooms and toilets, as the dematerialization technology instantly dematerializes all water, and other substances and turns them into ambient energy.

And a little bonus: most of the Palkies have already received a million euros from the common property of all the landowners. By agreement with all the country's administrations, all the others will receive their million by the end of this year at the latest.

Our space friends are also looking after the health of the Palkies. If someone is injured, they heal them instantly. If someone dies and is a good person, he is revived in a second. We also revive people who have been dead for a long time, only good people, of course.

How do you like the miracles that are also coming to Earth? Would you like:

1. A new, young, healthy, and beautiful body?

2. To live in a kind, friendly, and wonderful partnership, in true love?

3. To have your estate and house with all the science fiction technology?

4. To have a million euros?

5. To live on a planet without crime, violence, and war?

5. To live in paradise, and for eternity?

If your answer is Yes, read the most important series of books of your life.

Author's Note: On "Letters to Palkies – Miracles Are Real"

This chapter is not fiction. It is a direct confrontation with the depth of karmic programming and the systemic violence of imposed cosmic scripts. The people trapped in these scripts are not fools, they are victims of a planetary manipulation so vast it spans galaxies.

The Matrix described here is not metaphorical. It is a literal structure and Evil System of imposed behavior, suffering, and death. The Karmic Organization has written scripts for entire planets, feeding off the negative energy produced by hypnotized, programmed beings.

The miracles on Palki, new bodies, loving partnerships, free estates, and instant healing, are not fantasy. They are the result of cosmic liberation and the removal of karmic control. This chapter documents the beginning of that transformation.

This is just one chapter from Book 1: **Letters to Palkies - Are You Ready For The Miracles?** The awakening deepens, the evidence grows stronger, and the liberation becomes unstoppable.

The Complete Book Series Reveals:

1. Who the Karmic Organization is and how they scripted planetary suffering.
2. How Planet Palki achieved paradise after abolishing karma and religion.
3. Why even intelligent, educated people fall for karmic programming.
4. Practical exercises for awakening to Pure Awareness and healing false Ego personalities.
5. Scientific, ontological, and experiential evidence of cosmic manipulation, and how to escape it.

6. A detailed plan for Earth’s transformation: political, economic, spiritual, and technological.

The miracles on Palki are real, and they are coming to Earth.

The revelations get deeper, the transformation gets clearer, and the liberation gets closer.
